DOE SULLIVAN CAN'T "WORK" THE TEMPERANCE VOTERS.

Stanford Pastors Well Satisfied
With Harvey Helm's Position
on Temperance Matters.

Judge Sullivan, of Richmond, baffled at every turn, in his efforts to win the democrats of the Eighth congressional district, from their loyalty to Harvey Helm is now putting forth the last effort of a losing candidate and is resorting to the extreme which is oftentimes calculated to win votes when the people have refused all other claims of a discredited candidate. He is endeavoring to ride the temperance sentiment in the Eighth district into Congress upon the trumped up allegations that the whisky people are behind Congressman Helm, and the further consideration that he—Sullivan—is responsible for most of the temperance laws now upon the statute books of Kentucky.

Notwithstanding the facts in the case, notwithstanding that Congressman Helm declared himself as favoring the measure in the national congress which the temperance people most ardently desire enacted into law and which he, himself has never yet so far as we have seen, publicly declared himself as favoring, Judge Sullivan is now attempting through the medium of personal letters to the voters all over the district, to delude them into the belief that he is the only dyed-in-the-wool temperance candidate while, on the other hand he would have the people believe, it seems, that Harvey Helm is the candidate of all the distillers, brewers and grog shop men in the whole state of Kentucky, and that the temperance people of the district will have nothing to gain and everything to lose by the election of Mr. Helm.

Just what the temperance leaders of Lincoln county think of this self seeking assumption of the distinguished candidate from Madison, is shown by the following statement, signed by the ministers of Stanford, Mr. Helm's home:

What Temperance Leaders Here Say
Stanford, Ky., July 22, 1912

We, the undersigned ministers of the christian churches of this city and county, do hereby state that we are perfectly satisfied with the position of the Hon. Harvey Helm upon the Shepard-Kenyon bill now pending in Congress, the passage of which is earnestly desired by the temperance people.

The real temperance people of Lincoln, of whom it is one and for whom the Interior Journal counts itself qualified to speak, have no patience with any candidate who is a temperance man because he thinks it is popular and will win him votes. They are tired to death and thoroughly disgusted with having various and sundry candidates going up and down the length and breadth of the land, saying in effect, "Behold me, I am a good temperance man, therefore give me an office." We believe that the people as a whole are sick of these "prohibitionists for politics only" who prate of what they have done for the "cause" and when a race for office comes on, use that as the chief argument for their election.

No matter what issue comes before the people, "professional prohibitionists" like these, jump into it with

both feet foremost and demand to be given a front seat in the grand stand because they are "temperance men." They think that this should entitle them to all the offices and all the honors and because they may have voted dry in the last local option election, or voted in the legislature for some county unit bill, they should be given all preferment, while their opponents who did not calculate with such cunning upon the political advantages involved, should be handed the cold shoulder all around.

The Interior Journal is a temperance newspaper at all times. It's editor never voted for whisky in his life and never expects to, and he did what he could in his humble way to keep whisky out of the county in the recent local option election. He never expects, however, to use that as an argument why he should be elected to office and has no patience with those "professional prohibitionists" who are now doing just such a thing. The democrats of this part of the state have before this seen the temperance sentiment of the people played upon by vote hunters and they have usually seen the nigger in the woodpile with unerring perspicacity. We believe that they will do it again in this case. Judge Sullivan can't fool the temperance democrats of this district. They've seen this game played before, and are not going to stand for it.

All One Way At Lancaster

Lancaster, July 22.—Congressman Helm had the crowd completely with him at all stages in his joint debate with Judge Jere Sullivan here Monday afternoon. The latter was accompanied here from Richmond by about a dozen friends, but the local admirers of Helm outnumbered them so that the crowd seemed all one way. Local democratic leaders say that Garrard will go three or four to one for Helm in the primary Saturday, August 3.

McRoberts and George D. Wedren.

Lyon, Will Cordier, John Chappell, Craig Camden, Ben Lunsford, Gus Geisz, T. W. Napier, Simon Petrey, B. B. ANDERSON TEMPERANCE PEOPLE FOR HELM FOR CONGRESS.

Two Letters Come Out Which Show
How Sullivan's Effort to Ride
Temperance Voters Into
Congress is Failing.

Just how flat the efforts of Judge Sullivan and his friends to "ride" him to victory in the congressional race on the temperance issue, are failing, is again shown in two letters which have fallen into the hands of the I. J. The writer of the first letter, John W. Flowers, is said to be one of Sullivan's leaders in Adair county. The letters are perfectly self explanatory and speak well for themselves. They are as follows:

Flowers' Letter.

Columbia, Ky., July 16, 1912.
Pastor Presbyterian church,
Lawrenceburg, Ky.

Dear Sir:

I have been informed that the whisky people in Anderson county are supporting Helm for Congress and are opposed to Sullivan on account of his favoring the passage of the county unit law. Is my information correct? I have also been informed that Mr. Booth, Superintendent of the Kentucky Distilleries and Warehouse Co., is managing Mr. Helm's campaign and I want to know if this is correct.

If the liquor people are supporting Helm, it looks like it is time for the temperance people to be getting busy. I inclose stamped envelope for your reply. Yours truly,

(Signed) John W. Flowers.

The Reply

Lawrenceburg, Ky., July 20, '12
Mr. John W. Flowers,
Columbia, Ky.

Dear Sir:

Your letter addressed to the pastor of the Presbyterian church has been handed to me for answer. We are without a pastor now, but since I am an Elder of the church, I trust that I may be able to correct the false information that you have received.

In Anderson county the people are nearly equally divided on the temperance question that is, about half are wet and half are dry.

Both sides, with singular unanimity, are supporting Mr. Helm. I estimate that out of a democratic vote of about fifteen hundred, Mr. Sullivan would receive not exceeding one hundred or one hundred and fifty votes in this county, if the vote were taken today. Helm's supporters are drawn from both sides and the liquor question is cutting no figure in the contest.

Sullivan's leader in the county is Hon. William Dowling, Senator from this district, and himself a distiller, the son of a distiller, and one of the constant opponents of the county unit bill.

Mr. Booth, superintendent of one of the plants of the Kentucky Distilleries & Warehouse Co., and a Presbyterian by the way, will vote for Mr. Helm, I am told, but he is not managing Helm's campaign, and is supporting him rather lukewarmly.

In fact everybody here is for Helm with regard to race, color or previous condition of servitude. The question you raise has occurred to no one here. Helm has made an excellent impression on our people personally, and officially has been of real use. Among other things, he has caused an appropriation to be made for a public building a thing that we had sought in vain for years.

Do not understand me to be one of Helm's rank partisans. I am merely writing you the truth as I know it. Our temperance people seem thoroughly satisfied with Mr. Helm. It appears to us that if he is to be beaten it should be on some other ground than any thing we have heard or know in this connection. He appears right on the bill pending in Congress on the liquor traffic.

(Signed) J. W. MAHAN.

GOD'S WHEAT FIELD.

Matthew xiii, 24-30, 36-43—July 28.
"Gather ye together first the tares, and bind them in bundles to burn them, but gather the wheat into my garner."—Verses 28.

Our International Sunday School Lessons are specially helpful this year. We are glad that the selection contains so many lessons on the Kingdom. This topic has not had sufficient consideration, considering its prominence in the Bible. Today's study is another of the Kingdom parables. It is the embryo Kingdom that is pictured; it relates to this Gospel Age, and the work of selecting the Church.

"The Field is the World."

This parable also shows us the very commencement of the Lord's call for His Bride from amongst all nations. St. Paul declares to the Jews, "It was necessary that the Gospel should be preached first unto you, but seeing ye reject it, * * * we turn to the Gentiles." (Acts xiii, 46.) The entire world constituted the "field" for the sowing of the "good seed," which is strictly defined, "the Gospel of the Kingdom." Jesus and the Apostles sowed this "good seed," and all His true followers since have been authorized to continue the work in His name. But the Adversary, Satan, as pointed out here in the parable, brought in a different kind of "seed," and sowed this over the "wheat field." The result is that today the "tares" are so plentiful that they think they are the "wheat," and the world in general so considers them.

The "wheat" class are considered "a peculiar people." Of their good fruits the Apostle mentions meekness and humility, and these tend to bow their heads, while the "tares" stand proudly up in the display of their "form of godliness." The Lord allowed the matter to go on, fully assured that He would have in the end the crop which He desired, and very content to allow a great lesson to be taught by the presence of the "tares" and the ultimate treatment accorded the "wheat."

The Lord could have hindered the Adversary from bringing in the false doctrine, or He could have separated centuries ago between the wheat and tare classes, but this was not according to His intention. He purposed to "let both grow together until the Harvest." In the Common Version the words, "The Harvest is the end of the world," have been seriously misunderstood. It does not mean the end of time, nor the end of the earth—its destruction—nor the end of Divine favor. It merely means the end of the present Age.

"In the Time of the Harvest."

This expression signifies that the Harvest of this Age will not be an instantaneous work, but a gradual one, requiring time. There is good reason for believing that the Harvest of this Age is a period of forty years, as the Harvest of the Jewish Age was of that length. In this time of the Harvest two things will be accomplished: (1) The "tares" will be gathered into "bundles," ready for the "burning"—destruction. (2) The "wheat," at the same time, will be gathered into the "garner"—the heavenly Kingdom.

"They shall gather out of His Kingdom all things which offend, and them which do iniquity; * * * there shall be weeping and gnashing of teeth." There will be two classes amongst the "tares"; one class, "doers of iniquity" (iniquity, unrighteousness), the other class, those that have caused others to stumble. Doubtless this will include many teachers and preachers, and many doers of wonderful works.

But we must not forget that we are considering a parable, and that the "tares" are symbolical, and likewise the "burning" and the "fire." The interpretation is that, in the end of this Age, the Harvest time, there will be a great "time of trouble" for all nations, society, governments, financial institutions, etc. The "wheat" class will be saved from that "time of trouble" by the resurrection change. But the "tares" will not be saved from it; they will be cast into the trouble and have their portion with the hypocrites.

That trouble will not last forever. Many Scriptures seem to show that it will be terrific, but of very short duration. It will be on the earth, and not in some far-off place. When the "fire" of that great day of anarchy and trouble shall come to "burn," there will be no more "tares," there will be no more people having more forms of godliness and pretensions for the Kingdom, begotten of error.

All humanity will be humbled and anxious for Messiah's Kingdom, which will then be established. It will be "the desire of all nations." (Haggai ii, 7.) Those formerly "tares," as well as the remainder of the groaning creation, will welcome it and its blessings. In that Kingdom the glorified "wheat" class "shall shine forth as the sun" for the blessing of all the families of the earth.—Matt. xiii, 43; Galatians iii, 28.

MRS. MCGILL BROKE DOWN

Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good. One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more."

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

The great danger of kidney trouble is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease may follow as the kidneys get worse. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in Stanford.

Dawson Barnette, Rowland, St., Stanford, Ky., says: "Some time ago I had a severe fall and this together with the jarring to which I am subject at my work, brought on kidney trouble. For several days I could hardly get about on account of the terrible pains in my back. I also noticed that the passages of the kidney secretions were irregular, especially at night. I decided to cure my trouble before it became chronic and as I knew Doan's Kidney Pills to be good for such complaints, I began their use. Before I had finished the box, I was entirely cured and have had no kidney trouble since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ROTATION OF CROPS

Reply to a Michigan Correspondent

"I am growing sugar beets and my land seems to be decreasing in production. What rotation can I use?"

In some localities it has been found that beets do best following alfalfa, corn and small grains. A very good rotation is as follows: First, wheat; second year, beets; then clover for two years, last crop being plowed under; then potatoes, and the rotation repeated. If alfalfa can be grown in your locality it is a good plan to include this in the rotation.

In Montana the best rotation for beet raising is as follows: Wheat, clover, oats, sugar beets, barley and peas. In Utah the following rotation gives good satisfaction: First year, sugar beets; second year, peas and oats for forage; third year, sugar beets; fourth year, oats, seeded to alfalfa; fifth year, alfalfa.

THREE-HORSE HITCHES

A Kansas correspondent writes: "In making a three-horse evener for a disk, I would like to know where the hole should be bored. Should two-thirds of the evener be given to the single horse to make an even distribution of the pull, or should it be measured from the outside of the singletree?"

You will experience but little difficulty in dividing the load equally among the horses if you take into consideration the fact that the amount of work each horse does is in proportion to the lever arm or the portion of the doubletree given to him. In the case of three horses the third horse, or one which works singly, in order to do the same amount of work as the other two, should be given twice the length of lever arm as the team. The length of the evener and also the length of the singletrees will depend upon the size of the horses and also whether you desire working them close together or somewhat spread out. For summer work the horses will stand the heat a little better if given plenty of room. This is advisable where conditions are such that more room can be given and at the same time not hinder accomplishing the work satisfactorily.

You will note in illustration No. 1, that the third horse is given thirty inches of the lever arm, while the other two are given only fifteen. This distance is satisfactory for medium-sized horses. Where larger teams are to be used, it should be increased accordingly.

A common three-horse evener

Sometimes it is necessary in working young animals, or light horses, to give them an advantage. This can be done by increasing the length of the lever arm. There is no set rule for determining the amount of advantage to be given in the case of small horses. The most satisfactory way is to use a number of holes and simply shift the clevis until the small horse is able to carry the load the entire day without becoming more fatigued than the other horses. Some claim that the amount of lever arm or advantage given the small horse should be in proportion to the weight, but this is not always satisfactory because it is not taking into consideration the physical condition of the horses, which is a very important factor. However, to begin with, this method of adjustment does very well; other changes can be made as occasion requires.

His Landlady's Advice Probably Saved His Life

I feel that Dr. Kilmer's Swamp-Root saved my life. I inherited weak kidneys. The discharge was so frequent and painful that I would have to stay in bed to obtain temporary relief. I consulted good physicians but the results were disappointing. My landlady advised me to try Swamp-Root as the last resort, which I did and I was quickly relieved.

I continued taking Swamp-Root and my weight has increased fifty pounds. My health is of the best and I have told many others about Dr. Kilmer's Swamp-Root and have done a lot of good in this way. Your wonderful medicine is of great value to mankind.

Yours very truly, J. H. BRUXBY, Pawtucket, R. I. The above statement made before me I declare to be truthful in every detail. Thomas Marsden, Notary Public.

Every article marked in plain figures, and sold just as advertised. Make us prove it. We need the money more than the goods. This fact combined with still other reasons, gives the strongest incentive to make this an unusual happening. We have adopted the most effective weapon known to modern merchandising, that is not only the eliminating of every vestage of profit, but the cutting down deep into the very vitals of the original cost of every item and presenting in our store, without reserve. Come with the crowds and make us prove every assertion we have made.

THE FARMERS

Posted—Chas. Semonis.
William J. Beck.

V. A. Lear, of Garrard county, continues his large shipment of lambs, having exported a double decker of 250 head on Friday the following being some of his biggest purchases for this large consignment: From W. R. Cook 40 75-pound lambs at 6 cents; from R. J. Burton 40 70-pound lambs at 6 1-2 cents from Thomas Hendren a bunch of 70-pound lambs at 6 cents; from William Scott 25 75-pound lambs at 6 1-2 cents; from James Parsons 30 70-pound lambs at 6 cents; from Sydney Poor 25 80-pound lambs at 6 1-4 cents.

Mr. Lear also made a shipment of hogs last week to Hubbard House and Ragsdale at Cincinnati, the following being some of his purchases: From Jas. Baker 20 180-pound hogs at 7 cents; from George Ray 14 170-pound porkers at 6 3-4 cents; from Charles Dean 8 125-pound shoats at 6 1-4 cents; from Nathan Bogie 8 180-pound hogs at 7 cents; from Robert Long, 5 175-pound hogs at

5 3-4 cents.

Fox and Anderson shipped a car of stock to Cincinnati Tuesday containing about 60 head of sheep and lambs and a bunch of cattle that cost them from 2 1-2 to 5 cents.

T. W. Jones shipped 3 car-loads of lambs from Rowland, 160 to the car, that cost from 5 to 6 cents.

Cress and Jones exported a car of hogs from Rowland, buying 85 200-pound porkers from George Spoonamore, at 7 cents and 9 150-pound porkers from Phil Thompson at a like figure.

V. A. Lear has sold his wheat for the best price so far heard of having engaged 600 bushels to Alex Walker, of the Lancaster flouring mills at \$1.02 1-2 per bushel.

The Garrard Milling Company, of Lancaster, has been engaging extensively from Garrard farmers the following being recent purchases: A car load from the farmers of the Gilbert's Creek district at \$1: a car from the Lowell section at same price; 700 bushels from S. D. Cochran at \$1: a large crop from Capt. I. M. Dunn at \$1; 300 bushels from A. T. Scott and the crops of Leslie Ruble, J. W. Scott and August Scott

all at prevailing price, \$1.

The Danville Advocate says: M. J. Farris is probably the largest grower of wheat in this section of the state. His crop this year is an unusually large one, amounting to 11,100 bushels, which was grown on 500 acres of land. He sold it at \$1 per bushel.

This Colt Ought to Get Some Blues.

Horsemen are all looking forward with interest to the work of Kentucky Gentleman on the fair circuit this season. His owner, J. Nevin Carter, of this city, has had this handsome young son of Peavine in the hands of Walter Briggs, of Shelbyville, for schooling, several months, and believes that he is going to give a splendid account of himself when the blues are tied. All who have seen this colt pronounce him one of the handsomest in style, color and conformation seen in this part of the state in some time, and believe that he will round out into a great show horse. Mr. Briggs will campaign the three-year-old over the entire fair circuit, probably starting at Frankfort this week.

With headquarters at the Nunnally Stock Yards, Stanford, Ky., we offer our services and experience to the public in breaking and training horses for the saddle and buggy, making a specialty of five-gaited saddle horses. For terms and conditions, call and see us. We solicit your patronage.
